Business Plan

Amata Corporation PCL and its subsidiaries focus on dynamic development to keep up with the unceasing changes of technology and innovation of the future. Our group is ready for the Industry 4.0 era, to develop Smart Cities and learning centers in the region from our expertise in the industrial estate and related businesses, and provide the ideal investment areas in the Eastern Economic Corridor (EEC), while enhancing quality of life for the people working in the sites and for local communities around the areas.

Sustainable Development Plan

The Company has driven the sustainable development which covers the operation of all levels, i.e. economy, society and environment. The Company has considered risk factors from internal and external changes, global trends and mega forces which may impact the Company and stakeholders and also considered the stakeholders' needs and expectations to set targets, develop strategies and plans to efficiently respond to the material sustainability topics.

- medium-term goal to reduce direct and indirect greenhouse gas emission (Scope 1 & 2) intensity by 30%, compared to the 2019 base year, within 2030.
- long-term goal toward a low carbon city which focuses on energy efficiency by 2040.
